Ceramics

There are a great variety of options within the Burlington collection. Choose from the simply styled Classic collection in either a round or square design, the Edwardian basin with its subtle angular appearance, again in a round or square design, Victorian with a refined look.

Basins are available in one, two or three tap hole options and can be used on a variety of styled pedestals; either standard, regal, semi pedestal, washstand or countertop options.

WC's are available as close coupled, low, medium or high level, as well as back to wall options. There are also Regal WC's offering a higher seating position throughout the range and a new addition of a Rimless WC.

Basins

Our Burlington basins can be paired with a standard or Regal pedestal option. The Regal options are 60mm taller than the standard and are available throughout the range of full pedestals in Classic, Victorian and Edwardian.

Within the washstand collection, we also offer the taller option, meaning that all basins can be used at a more comfortable height for those who wish.

840mm

Basins

*B*urlington Bathroom design is governed largely by the washbasin style. Every design is crafted to reflect the specific era in which British sanitaryware rose in fame and was heralded as the best in aesthetic and performance. Burlington's key design themes are represented through Classic, Edwardian, and Victorian eras. Every basin is crafted to the highest quality and is full of character and style with various choices in style, size and other options to suit your own individual tastes and requirements.

CLASSIC

The Classic collection from Burlington is beautifully formed, either as a curvaceous round design or a grand square model. This collection also features the invisible overflow, and innovative waste technology.

CLOAKROOM

A selection of cloakroom options have been crafted so you can match your chosen style throughout the home. You'll find Edwardian, Victorian and more Classic styled cloakroom basins to achieve a consistent and beautiful look throughout every wash room.

EDWARDIAN

The Edwardian collection is the ultimate in traditional bathrooms with structured corners and angular designs, the feel is unapologetic and proud.

VICTORIAN

A delicate and refined range, the simplicity of this ceramic basin is stunning. Available in a medium (560mm) or large (610mm) and a range of pedestal and tap hole options, the versatility of this style allows you to continue the style throughout your home and brings an air of luxury to every room.

PEDESTAL OPTIONS

Available with Edwardian (560, 610mm) & Victorian basins

Burlington Regal pedestals are 60mm higher than the standard pedestals. Overall heights (including basin):

	Standard Height	Regal Height
Classic	860mm	N/A
Victorian	840mm	900mm
Edwardian	840mm	900mm

Standard

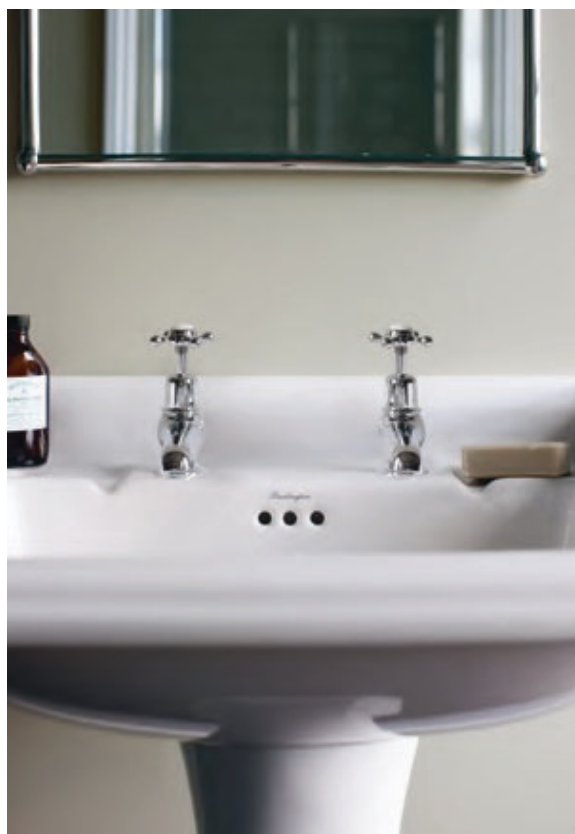

Regal

classic

The Classic basin collection from Burlington is beautifully formed, either as a rectangle or round design. This collection also features an innovative waste technology. Choose a Classic basin with invisible overflow allowing you to have seamless ceramic without a plug. All Classic basins are available as one, two or three tap holes on standard or regal pedestals or a range of washstands and furniture.

WC's

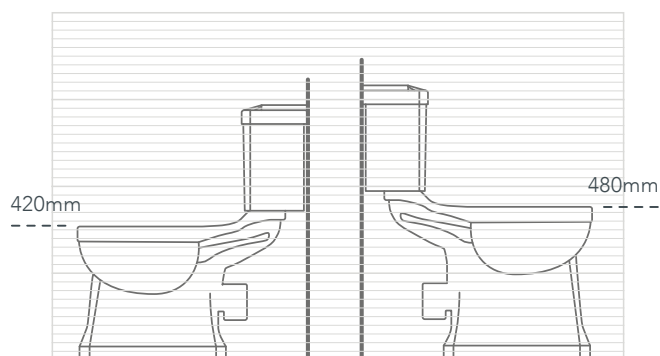

*B*urlington WC's come in a range of options, from the more contemporary back-to-wall option, to traditional close-coupled or the impressive low, medium or high-level WC's. All options feature water saving technology, only flushing 6L for a full flush or 3L for a half. These factory settings can be adjusted to 4 ½ L for a full flush or 2 ½ L for a half flush. Pair your WC with a real wood seat to accentuate the classic styling. Unlike many other traditional brands, Burlington offer soft-close options on white, oak and mahogany seats. For a premium look, select the throne seat (high level only) with intricate and ornate brackets, which provide a focal point in your stunning traditional bathroom.

Baths

The Burlington range of free-standing baths offers beautifully crafted exclusivity in a variety of styles to suit both modern and traditional spaces. Choose from soaking tubs, exclusive traditional baths with 2 feet styles and three colours to personalise your bath to your individual tastes and bathroom décor. All the baths are made using the highest quality techniques and processes to ensure the finished product will provide many years of blissful bathing. Whichever bath from our extensive range you choose, you are assured of the finest quality.

TSFR

• The baths are made from Twinned Skinned Fused Reinforced acrylic. This material is both strong and hard wearing whilst being lightweight making the Burlington bath the perfect option for your bathroom.

WEIGHT • The weight of the bath when stood empty.

WEIGHT CAPACITY • Capacity available for the bath when empty.

WEIGHT CAPACITY WITH PERSON IN IT • Capacity of the bath when person is sitting in the bath.

windsor

The Windsor bath is a gorgeous example of a traditional roll top bath with perfectly formed curved and flowing lines. Being double-ended with gradually sloping sides it allows for luxurious bathing. Windsor baths are available in 1500mm and 1700mm.

Brassware

*T*he Brassware is packed full of innovative technology, not seen amongst other traditional competitors. Every Burlington tap is supplied with a flow straightener for areas with low water pressure and an aerator for areas with high water pressure. This, unlike most traditional taps, ensures your water is delivered at 13 litres per minute regardless of incoming water pressure. So you no longer have to cope with water splashing everywhere, the flow from a Burlington tap is perfect every time.

All bath fillers and bath shower mixers have rotating spouts so you can move the brassware out of the way to enjoy a relaxing bathe. Every bath shower mixer also comes with an 'S' Adjuster, allowing you to position the handset over the bath. You can install your bath shower mixer with or without this feature. All are also available as an angled option, so you see the indices when you walk into the room. Bridge basin mixer spouts also swivel to allow you to turn your tap into a drinking fountain.

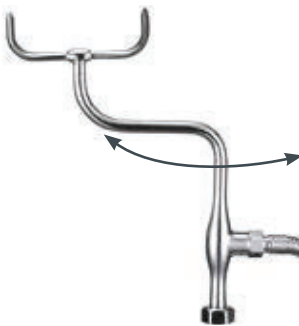

SWIVELLING SPOUTS

All our Bath Fillers and Bath Shower Mixer spouts swivel - so you don't have the spout in your way when you shower.

ANGLED MIXERS

All our Bath Fillers and Bath Shower Mixers are available in an "angled" version.

'S' ADJUSTERS

The S adjuster allows the telephone handset to be positioned over the bath - when you are done it drips into the bath. The bath shower mixer can be installed with or without the "S Adjuster".

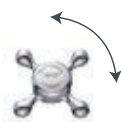

BRIDGE MIXERS

Our Bridge Basin Mixer has a swivelling spout and allows you to have mixed hot & cold water, whilst using a two tap hole configuration.

Introducing *black*

Introducing a black indice option from Burlington, you can now pair nearly all of our brassware options with a black indice instead of the classic white. This allows for a variation between the classic styling and a modern take on the existing options.

The brassware options can be paired with various accessories including radiators, bath wastes and even our showering range.

NEW BLACK TAPS

New black indice and handle tap options are now available for Burlington brassware.

Refer to page 55 for options
(Non-stock item, POA).

Showering

The Burlington range of showers provides extensive options so you can create a showering solution for your own bespoke setting. Whether you prefer showering over a bath or in an enclosure, Burlington has a solution for your own requirements. Thermostatic valves offer safe and controllable showering for the entire family. Shower valves and brassware features polished chrome, enhanced by timeless white ceramic, to both look fantastic and be ergonomic to use. Designed using the highest quality materials to achieve yesterday's designs with today's technology, you are ensured a great showering experience.

Now introducing the Digital range of showering the Classic 1910 options provide a higher level of showering options for those looking for the latest technology in their classic Burlington bathroom.

THERMOSTATIC SAFETY / ANTI LIMESCALE • We use Vernet wax capsules throughout our showering valves, meaning temperature when showering will now vary by no more than $\pm 1^{\circ}\text{C}$. The quality materials minimise potential limescale effects enabling extended lifetimes.

CERAMIC DISC TECHNOLOGY • Burlington offers ceramic disc technology across its showering range.

ONE WAY WATER • Our non-return valves ensure the flow of water in only one direction, ensuring heating efficiency, preventing siphonage of contaminated water and keeping your shower cartridge in excellent condition for longer.

AIRBURST • By combining air and water, the pressure inside the shower head is increased. The power of a traditional shower with up to 33% water saved.

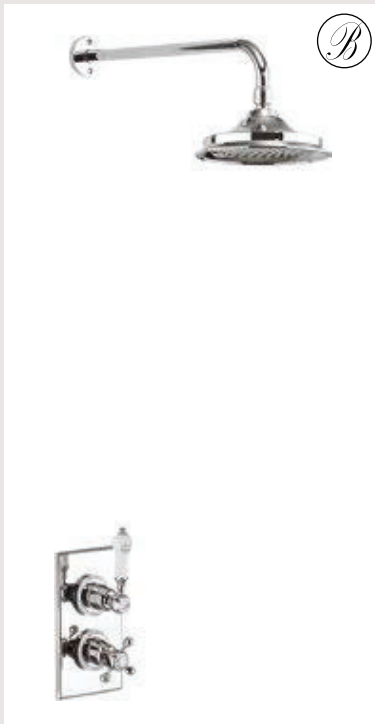

NEW BLACK LEVERS • New Black lever and handle options are now available for Burlington showering. Look for the B symbol (pictured left) within the showering pages where there is a black option available.

radiators

ELECTRIC SUMMER HEATING KITS

Our radiators contain steel and are therefore only suitable for hot water (closed) central heating systems. During electric heating use the valves must be left open so the radiator is full of water to ensure correct performance.

All Electric heating kits are rated IP44.

Regal is quite possibly the most diverse and exquisite collection of classic styled tapware in New Zealand. Each and every item is available in 10 unique finishes, and has up to 9 handle options including those that feature Swarovski clear and black crystal inserts.

Regal is made by Nicolazzi, a boutique tapware manufacturer located on the shores of Lake Orta in Northern Italy who pride themselves in handcrafting their taps completely 'in-house' combining modern technology with age-old craftsmanship.

*Crystal handles are made with Swarovski elements

The stand-out feature of the Regal collection is that each and every item is available in 10 unique finishes, and has up to 9 handle/knob options including those that feature Swarovski clear and black crystal inserts. This means the detail can continue right through the home by matching all the bathroom tapware, showers, exposed plumbing, bathroom accessories and kitchen tapware.

Regal is made by Nicolazzi, a boutique tapware manufacturer located on the shores of Lake Orta in Northern Italy. Nicolazzi, established in 1960 pride themselves in handcrafting their taps completely ‘in-house’ combining modern technology with age-old craftsmanship.

McKinley Cast Iron Baths are made in Portugal using Class A enamel which is totally resistant to acidic and alkaline products, keeps it's sparkle, smells do not linger on it and bacteria or fungi do not adhere to it, making the bathtubs highly hygienic and beautiful to touch and see.

They have an extremely high level of thermal and sound insulation making the water in the bath stay hot for longer and their surface is very smooth and easy to clean.

Painted in New Zealand, Plumblin can offer this range of baths in any colour imaginable and when coupled with coloured or plated feet, the possibilities are truly endless.

London

cherry
pie®

new

St Michel's new London range finds an elegant balance between contemporary minimalism and traditional elegance. Compatible with most architectural styles, the vanities feature bench tops, splashbacks and basins fashioned from solid-surface Cherry Pie®, for beauty and durability that's more than skin deep.

London Push to Open

Use a hand or knee for push-to-open simplicity. Luxury soft-close technology ensures closing the drawers is just as easy. You'll love the clean, uncluttered handle-free look, plus the chance to choose between four basin styles. Whether your home is heritage or contemporary, London fits right in.

London with Handles

If you prefer the decorative effect of handles, London offers two choices – a fashionable cup handle in antique black or chrome, or a bar handle. Whichever you choose, your drawers will also come with luxury German soft-close technology.

London Features

Cherry Pie® top & splashback

London vanities feature premium, solid-surface Cherry Pie® bench tops (60mm thick), which have the look and lustre of natural stone, but with all the durability and cleaning benefits of an engineered surface. All vanities are supplied with a matching Cherry Pie® splashback (20mm thick). Whether you install the splashback or not is up to you, however it provides a sense of unity because it matches the benchtop. Splashback is supplied 250mm high, if required it can be cut down to reduce height by installer on site.

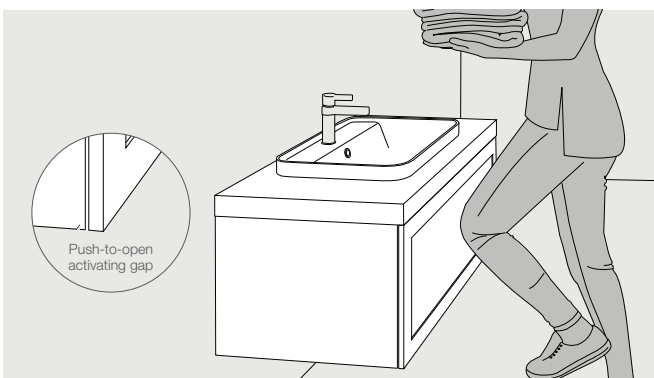

Finish / Carrara

Matte white basins and two tapware positions

Tell us whether you are planning to use wall-mounted or top-mounted tapware, so that we can supply the correct benchtop configuration for your vanity. For the London range, we've selected Cherry Pie® Matte white basins, which are durable, repairable, easy to clean and gentle on the eyes.

Tapware / Martini by Jamie-J (not Included)

Push-to-open and softclose

For a clean, uncluttered look, you can choose push-to-open technology – drawers open with a slight push and shut with a gentle soft-close action. You can even go hands-free by pushing with your knee. Whether you choose the premium push-to-open option or handles, all drawers have Hettich soft-close technology. Made in Germany, drawer systems come with a lifetime Hettich warranty.

Push-to-open activating gap: when the drawer is closed the normal resting position can be 3.5mm off the cabinet. This is required to allow the push-to-open mechanism to operate.

Shaker-style Durashell front panels

The front panels of London vanities are made from Durashell, a surfacing material with good looks that are guaranteed to last. Durashell is resistant to knocks, chips and fading. For our London range, we've selected a white satin finish that harmonises beautifully with the side panels.

Finish / White Satin

Aqua Edge® side panels

For superior protection where it's needed most, water-resistant Aqua Edge® sealing technology creates a highly water-resistant melamine edge. It works by protecting and sealing exposed edges that are most likely to come into contact with water. Panels with Aqua Edge® keep their perfect looks longer than painted panels, which are vulnerable to chipping.

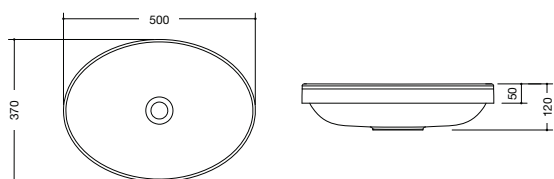

Finish / White Satin

Cherry Pie® Matte white basins

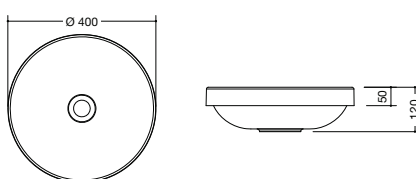

The London basin series is created from Cherry Pie premium solid-surface material, which is non-porous and hygienic. The finish is matte white, which is ideal for the bathroom environment – not just because it's easy on the eye, but because it offers long-term durability benefits.

Dignity Basin

Respect Basin

Heat

Cherry Pie solid-surface basins can withstand the indirect heat of hair straighteners for up to one hour. Contact with direct heat sources should be avoided.

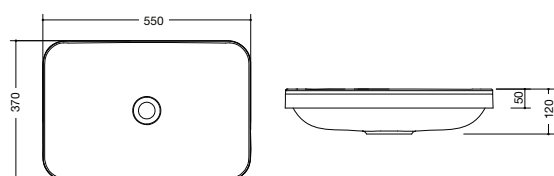

Maintenance

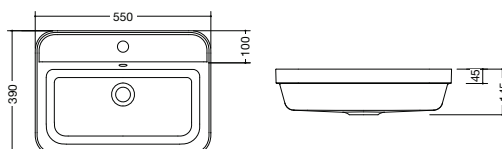

Stubborn stains, including hair dye, can be easily buffed out with a non-metallic scouring pad used in a circular motion.

Pride Basin

Star Basin

Cleaning

Daily care is simple and fast. For best results, just wipe clean with soapy water and a microfiber cloth.

London Small Spaces

Possibly the cleverest small-space vanity we've ever designed, because its cantilevered benchtop leaves more room to move.

The 400mm London Small Space can accommodate a soap dispenser, while the larger 550mm and 800mm sizes have the sort of bench area required by a powder room.

Choose push-to-open or handle model.

Acura

FRAMELESS ALL-WHITE AND TILEABLE SHOWER SYSTEM

ALL NEW
SOFT-CLOSE
SLIDING
SYSTEM

Exclusive to **mico**
The bathroom specialist

Introducing the new...

Acura

all-in-one frameless shower system

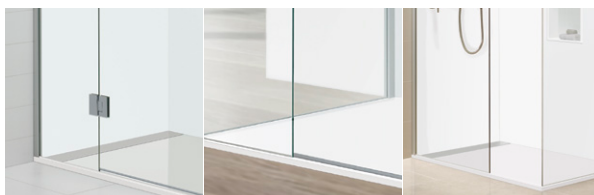

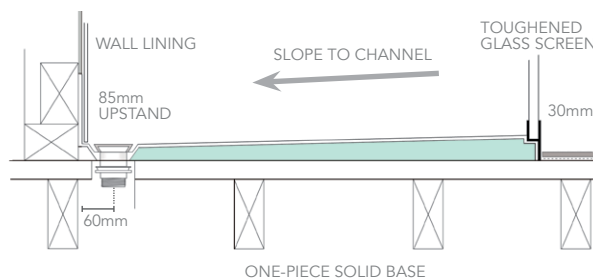

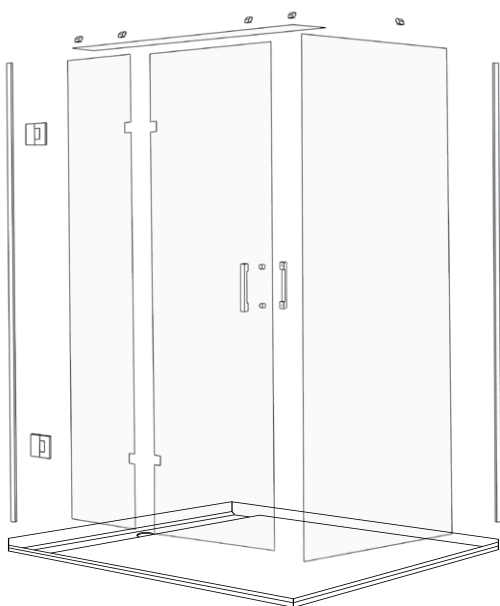

Acura offers the reassurance of an all-in-one, one piece channel drain base system, designed by Atlantis.

It's the perfect solution for any bathroom space – tiled or prefinished – especially for upstairs wooden floor applications where you cannot afford to take risks.

Whether you prefer the minimalist style of a white acrylic shower, or a timeless tiled shower, hinged or all-new sliding, the all-in-one Acura shower system is the answer.

THE ALL-IN-ONE PACKAGE

- Durable one-piece channel drain shower base
- Precision engineered and refined style
- 85mm upstand for superior watertightness
- Luxurious stainless steel channel drain cover
- Chromed, solid brass self centering hinges or sealed soft-close sliding system
- Stainless steel handle set and channel grate
- 40mm hi-flow waste fitting
- 8mm frameless glass screens and componentry
- Height of shower to top of screens 2060mm
- Optional shampoo recess – 300 x 400 prefinished white or 390 x 340 tile-in (inside size)
- Easy installation
- Produced by Atlantis – New Zealand's superior shower company
- Optional acrylic liner or Ellure Tile Look Walls
- Meets NZ Building Code (AS/NZS2208-96).

Acura

New Zealand's lowest profile channel drain shower base

Designed and engineered by Atlantis –
New Zealand's leading shower manufacturer.
We understand the importance of creating
showers that are solid and won't flex or move
under foot. This is backed by a comprehensive
warranty, ensuring that your shower is going to
go the distance

There are a few important points to consider when choosing the best shower base;

- 1 Is the base one-piece?
- 2 Is the upstand part of the base?
- 3 Does it have a 15 year warranty?
- 4 Does it allow for a continuous
waterproof membrane?
- 5 Is there a single plane to the drain?

The Acura all-in-one shower system ticks all of the boxes.

Protect your home with a
shower that is guaranteed to go
the distance.

15 year warranty
